CPD - Definition

Taken from the Royal College of Veterinary Surgeons (UK register)

“the systematic maintenance, improvement and broadening of knowledge and skill and the development of personal qualities necessary for the execution of professional and technical duties throughout the veterinarian’s working life”
Veterinary Medicine is a liberal profession “practiced on the basis of relevant professional qualifications ..... 

...... continuing education and training shall ensure that persons who have completed their studies are able to keep abreast of professional developments to the extent necessary to maintain safe and effective practice”.
FVE Strategy

As science and ethics advance and evolve, veterinarians must follow lifelong learning to maintain and enhance their knowledge and skills.
UEVP
Union of European Veterinary Practitioners

CPD in European Countries

UEVP Questionnaire

22 countries responded:

• CPD availability: 19 yes 3 no
• 10 CPD voluntary 9 mandatory
• Unit of CPD – 6 in hours 7 in points
• 14 with National Committee made up of practitioners+academics+chamber
• CPD providers evaluated: 12 ; not 9
• Linked with right to practice: 7 yes
Weakness of European CPD:

- harmonised recognition of professional qualification, Dir 2005/36 EC
- “harmonised” basic education, EAEVE/FVE evaluation
- no harmonisation of CPD: no EU standards - no EU recognition
- Impossibility of assessment of CPD offers
ECCVT
European Coordinating Committee for Veterinary Training by FVE, EAEVE and EBVS
established

EBCPD
European Board for Continuous Professional Development
EBCPD

The purpose of this initiative is:

- To ensure quality of CPD by setting standards
- To bring transparency in the market by evaluating existing CPD courses and offers
- To utilize the ECTS system for measurement of education credits, in order to assist in the harmonisation and mutual recognition among European national authorities and Universities
European Credit Transfer and Accumulation System (ECTS)

ECTS makes teaching and learning in higher education more transparent across Europe and facilitates the recognition of all studies.

Each learning outcome is expressed in terms of credits, with a student workload ranging from 1 500 to 1 800 hours for an academic year, and one credit generally corresponds to 25-30 hours of work.
