TAIEX – Kiev 2-3 November 2010

« Statutory Body: a necessity for a well regulated profession »

Francesco Proscia
Veterinary Policy Advisor
FVE
• Statutory Body – EU, OIE, FVE
• Veterinary profession as a regulated profession
• FVE Statutory Body Working Group
• Conclusions ?
FVE is a federation of:

- 44 national veterinary organizations in 38 European countries (including all EU Member States)
- 4 international veterinary organizations or “Sections” UEVH, UEVP, EASVO and EVERI

Through its members, FVE represents approximately 200 000 veterinarians
FVE’s Mission

The European veterinary profession, embodied by FVE, strives to promote animal health, animal welfare and public health across Europe.

Together with its members, FVE aims to support veterinarians to deliver their professional responsibilities at the highest possible level, recognized and valued by the society.
What does Regulated Profession mean?

A profession is said to be regulated when access and exercise is subject to the possession of a specific professional qualification.

An intellectual is a person who uses intelligence (thought and reason) and critical or analytical reasoning in either a professional or a personal capacity.

Accessibility accountability and transparency are expected of every regulated profession.

Areas for Veterinary Legislation

- Veterinary Professional Qualification
- Trade
- Health (animal health and public health)
- Animal welfare
- Zootechnical Aspects
- Feeding stuffs
- Foodstuffs
- Veterinary Medical and Bio-technical Products
- etc.
DG Internal Market and Services

Directives _ 2005/36 /EC
_2006/123 /EC

Aim to remove internal barriers that might hinder
• the freedom of establishment for service providers
• the free movement of services

Both Directives relate to getting access to the national labour market (Once a market is entered, service providers fall under the rules of the host country)
Directive 2006/123 of the European parliament and of the Council of 12 December 2006 on services in the internal market

article 10: Requirements for entering a Member State’s labor market are only allowed if they are:

- Non-discriminatory
- Justified by an overriding reason related to public interest
- Proportionate to the public interest
- Clear and unambiguous
- Objective
- Made public in advance
- Transparent and accessible
Directive 2006/123 on services
Chapter IV > Free movement of services

article 16: Freedom to provide services

Requirements must respect the following principles

• Non-discriminatory
• Necessity, justified by an overriding reason related to public interest
• Proportionate to the public interest
Directive 2006/123 on services
Chapter V > **Quality of Services**

**article 22**: Information on providers and their services;
Name, legal status, contact details, Register and registration number, Competent authority, ... etc.

**article 23**: Professional liability insurance and guarantees

**article 24**: Commercial communications

**article 26**: Policy on quality of services
Certification, standards, Codes of Conduct
Directive 2005/36 on the Recognition of Professional Qualification

Article 1, Purpose

establishes rules according to which

- a Member State which makes access to or pursuit of a regulated profession in its territory contingent upon possession of specific professional qualifications shall recognize professional qualifications obtained in one or more other Member States and which allow the holder of the qualifications to pursue the same profession there, for access to and pursuit of that profession.
Article 38: The training of Veterinary Surgeons

1. The training of veterinary surgeons shall comprise a total of at least five years of full-time theoretical and practical study at a university or at a higher institute providing training recognized as being of an equivalent level, ....

.......... covering at least the study program referred to in Annex V, point 5.4.1.
Article 38: The training of Veterinary Surgeons

3. Training as a veterinary surgeon shall provide an assurance that the person in question has acquired the following knowledge and skills:

- adequate knowledge of the sciences on which the activities of the veterinary surgeon are based;
- adequate knowledge of the structure and functions of animals, of their husbandry, ……etc
ANNEX 5.4.1.
Study programme for veterinary surgeons

The programme of studies leading to the evidence of formal qualifications in veterinary medicine shall include at least the subjects listed below.

Basic subjects, Basic sciences, Clinical sciences

To sum up:

• In EU the content of Veterinary Education is a Member State competence (except for official controls)

• No EU rules for education of veterinarians who stay within the country where they obtained their qualification

• Veterinarians who wish to work in other (EU) Member States will have their qualifications automatically recognized, provided that the curriculum meets the minimum requirements of Directive 2005/36

• These requirements form the base for the standards used by the EAEVE & FVE system for the visitation and evaluation of schools
Veterinary Authority

Veterinarian
Means a person registered or licensed by the relevant veterinary statutory body of a country to practice veterinary medicine/science in that country . . . .

Veterinary Services
means the governmental and non-governmental organizations that implement animal health and welfare measures and other standards and recommendations in the Terrestrial Code and the OIE Aquatic Animal Health Code in the territory. The Veterinary Services are under the overall control and direction of the Veterinary Authority. Private sector organizations, veterinarians, veterinary paraprofessionals or aquatic animal health professionals are normally accredited or approved by the Veterinary Authority to deliver the delegated functions.

Veterinary Statutory Body
means an autonomous authority regulating veterinarians and veterinary Para-professionals.
Veterinary Services = Global Public Good = Goods whose benefits extend to all countries, people and generations.

with beneficial effects for:

- Poverty Alleviation
- Securing assets (What assets? capital, animal, services providers)
- Increasing productivity? “fostering a responsible livestock production”
- Market Access: local, regional and international
- Public Health: food safety and food security
- Environment preservation

Quality of Veterinary Services > What Quality?

2.3 Veterinarians & Veterinary Professions
2.4 Veterinarians & Veterinary Team
2.5 Veterinarians & Competent Authorities
2.6 Veterinarians & Society
2.7 Veterinarians & Environment
Definitions

Competent Authority
means any body or authority which has a supervisory or regulatory role in a Member State in relation to service activities, including, in particular administrative authorities, professional bodies, and those professional associations or other professional organizations which, in the exercise of their legal autonomy, regulate in a collective manner access to service activities or the exercise thereof. (Directive 2006/123/EC).

Regulated profession
means a professional activity or group of professional activities, *access to which, the pursuit of which, or one of the modes of pursuit of which is subject, directly or indirectly, by virtue of legislative, regulatory or administrative provisions to the possession of specific professional qualifications*; in particular, the use of a professional title limited by legislative, regulatory or administrative provisions to holders of a given professional qualification shall constitute a mode of pursuit. (Directive 2005/36/EC).

Service
means any self-employed economic activity, normally provided for remuneration, as referred to in Article 50 of the Treaty. (Directive 2006/123/EC). Veterinarian providing a service can be either self-employed or member of a company.
Veterinary Act

A. all material or intellectual interventions that have as their objective to diagnose, treat, or prevent mental or physical disease, injury, pain, or defect in an animal, or to determine the health and welfare status of an animal or group of animals, particularly its physiological status; including the prescription of veterinary medicines;

B. all interventions that cause or have the potential to cause pain;

C. all invasive interventions;

D. all veterinary interventions, including food or feed chain activities, affecting public health;

E. veterinary certification relating to any of the above.
Veterinary Act

FVE adopted the following definition of veterinary acts:

A. all material or intellectual interventions that have as their objective to diagnose, treat, or prevent mental or physical disease, injury, pain, or defect in an animal, or to determine the health and welfare status of an animal or group of animals, particularly its physiological status; including the prescription of veterinary medicines;

B. all interventions that cause or have the potential to cause pain;

C. all invasive interventions;

D. all veterinary interventions, including food or feed chain activities, affecting public health;

E. veterinary certification relating to any of the above.
FVE Statutory Body Working Group

Mandate:

The mandate of the Statutory Bodies Working Group is to assist FVE in developing a harmonized position with regard to the regulation of the veterinary profession in Europe and to other related international recommendations (e.g. OIE). Further to act as a facilitator for the exchange of information between national Competent Authorities, in particular in relation to the international movement of veterinary services, and to support Member States in the development of their regulations on the provisions of veterinary services.

The group was formed in January 2010

What does **WELL** Regulated Profession mean?

Does **WELL** imply over regulation?

How a Statutory Body can regulate the veterinary profession?
All Legislation governing the various professions is designed to meet the following requirements:

Accessibility
Accountability
Transparency

and to protect the public interest by ensuring a high level of education and training combined with personal and professional integrity

Rights and Responsibilities go hand in hand!
Rights and Responsibilities go hand in hand!

Point of reference for:

Fees, training and professional development, information sharing, running the business, recognition of qualifications, fitness to practice, services provision, EU legislation, EU/OIE and International Organization matters ……

Responsibilities to Clients, Patients, Consumers and General Public, Colleagues, under the Law, ……when things go wrong, treatment of animals by non veterinarians

Disputes, disciplinary matters, complaints…
Thank you
